LUBRICANTE "LUBRIMOTA" MULTIFUNCIÓN - 360°

premium

"LUBRIMOTA" MULTIFUNCTION LUBRICANT - 360°

ART	CONTENIDO CONTENT	PACK	\$
LB125	85 g / 125 ml	12	
LB216	155 g / 216 ml	12	
LB450	300 g / 450 ml	12	

Permite el uso invertido - Sistema 360°. Aroma a limón. Alta penetración.  
Allows inverted use - 360 ° system. Lemon scent. High penetration.

• FÓRMULA EUROPEA / EUROPEAN FORMULA:

Su exclusiva fórmula europea más aceitosa, con aditivos de silicona y teflón, lubrica y perdura por mucho más tiempo.

Its exclusive European oilier formula, with silicone and Teflon additives, lubricates and lasts much longer.

• VÁLVULA 360° / 360° VALVE:

La válvula 360° permite utilizarlo invertido pudiendo lubricar en lugares de difícil acceso donde la mayoría no llega.

The 360° valve allows it to be used upside down, being able to lubricate in hard-to-reach places where most do not reach.

• ALTA PRESIÓN / HIGH PRESSURE:

Su alta presión posibilita, como una hidrolavadora, ahorrar producto, desplazar suciedad y penetrar hasta lugares donde la mayoría no llega.

Its high pressure makes it possible, like a pressure washer, to save product, displace dirt and penetrate to places where most do not reach.

• FRAGANCIA LIMÓN / LEMON FRAGRANCE:

Su fragancia limón lo hace más amigable para usar en lugares cerrados o poco ventilados.

Its lemon fragrance makes it more friendly to use in closed or poorly ventilated places.

• SUJETADOR DE CÁNULA / CANNULA HOLDER:

La tapa tiene un práctico sujetador para evitar extraviar la cánula.

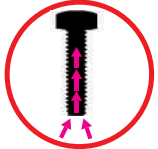

The cap has a practical clip to avoid misplacing the cannula.

• CAPILARIDAD / CAPILLARY:

La fórmula de LubrImota cuenta con esta propiedad que le permite desplazarse sobre los materiales con el correr de los minutos para llegar donde la pieza esta agarrada.

LubrImota's formula has this property that allows it to move over the materials over the course of minutes to reach where the piece is seized.

Para: Hierro, chapa, aluminio, madera, plástico, placas de yeso etc. Tiene ranuras que aliviaban el material que queda dentro de la copa y a su vez ventilan la sierra.

For: Iron, sheet metal, aluminum, wood, plastic, plasterboard, etc. It has grooves that relieved the material that remains inside the cup and in turn ventilates the saw.

REGULACIÓN DE LA GOTA  
DROP REGULATION

- 1 - Apoye el nivel sobre una superficie plana y verifique la posición de la gota.
- 2 - Gire el nivel a la posición inversa y verifique que la gota se encuentre en el mismo lugar que la posición anterior.
- 3 - En caso contrario, regule la posición de la gota mediante los tornillos para que en ambas posiciones quede en el mismo lugar.

- 1 - Place the level on a flat surface and check the position of the vial.
- 2 - Turn the level clockwise, to the opposite direction, and check the vial is in the same place as in the previous position.
- 3 - Otherwise, regulate the position of the vial by means of the screws so that in both positions it remains in the same place.

1. Todos los productos fabricados por MOTA Herramientas S.L. están amparados por la Garantía Total contra cualquier defecto de fabricación o material, de forma que los clientes tendrán derecho a la reposición de la pieza o piezas defectuosas siempre que el defecto tenga su origen directo en la fabricación o en el material de la misma.

2. El derecho de reposición se limita a la sustitución de la pieza defectuosa por otra nueva previa aceptación del departamento técnico y no comprenderá abono de ninguna clase.

3. La Garantía Total no ampara los defectos provenientes del desgaste o de la mala conservación y/o utilización de los productos por el cliente.

4. El plazo de la Garantía es de un año a partir de la fecha de compra, en el caso de productos sujetos a desgaste normal con el uso, tales como herramientas neumáticas y eléctricas. Las herramientas manuales gozan de garantía de por vida siempre y cuando se las utilice para y con el objeto que fueran fabricadas. Los materiales consumibles tales como cepillos, brocas, cuchillas, puntas, discos abrasivos, discos diamantados, paletas, tijeras de poda, sierras, lijas de mano y máquina tienen garantía de buen funcionamiento, la cual caduca con su desgaste. En el caso de deterioro prematuro, quedará a criterio de MOTA Herramientas S.L. su reposición sin cargo.

5. Para el correcto ejercicio de este derecho el cliente deberá comunicar por escrito a MOTA Herramientas S.L. el defecto y las piezas afectadas, indicando los datos relativos a la compra (fecha y número de factura). En el plazo de 30 días a contar desde la recepción de dicha comunicación MOTA Herramientas S.L. enviará a su representante de plaza a las instalaciones del cliente, a fin de suscribir conjuntamente la documentación relativa a las piezas defectuosas. Inmediatamente después, las mismas o una muestra escogida por el representante de plaza, serán remitidas a MOTA Herramientas S.L. a fin de que su departamento de calidad certifique el defecto. En el supuesto de que el informe del departamento de calidad confirme el defecto, MOTA Herramientas S.L. lo comunicará al cliente, anunciando la reposición de las piezas defectuosas.

6. La reposición se llevará a cabo en el menor plazo de tiempo posible y como norma se producirá junto con el más próximo envío de mercancía al cliente.

7. A la recepción de las piezas repuestas, el cliente deberá suscribir un documento manifestando su conformidad con la reposición efectuada y su renuncia a cualquier reclamación posterior a MOTA Herramientas S.L. por dicho motivo.

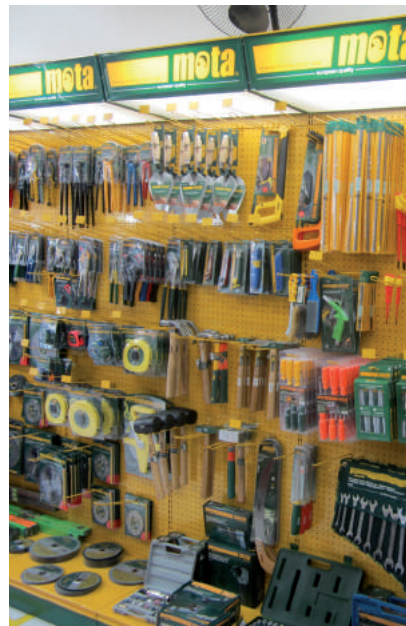

1. All products manufactured by MOTA Tools S.L. are covered by the Total Guarantee against any manufacturing or material defect, so that customers will have the right to replace the defective part or parts provided that the defect has its direct origin in the manufacture or in the material thereof.

2. The right of replacement is limited to the replacement of the defective part with a new one after acceptance by the technical department and will not include payment of any kind.

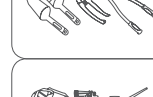

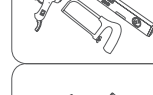

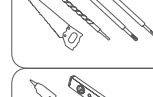

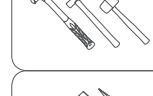

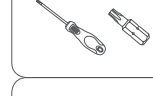

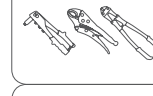

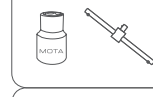

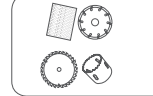

3. The Total Guarantee does not cover defects arising from wear or poor conservation and / or use of the products by the customer. 4. The warranty period is one year from the date of purchase, in the case of products subject to normal wear and tear with use, such as pneumatic and electric tools. Hand tools have a lifetime warranty as LENGTH as they are used for and for the purpose for which they were manufactured. Consumable materials such as brushes, bits, blades, tips, abrasive discs, diamond discs, trowels, pruning shears, saws, hand and machine sandpaper have a good performance guarantee, which expires with wear. In the case of premature deterioration, it will be at the discretion of MOTA Tools S.L. its replacement free of charge.

5. For the correct exercise of this right, the client must communicate in writing to MOTA Tools S.L. the defect and the parts affected, indicating the data related to the purchase (date and invoice number). Within 30 days from receipt of said communication MOTA Tools S.L. will send its representative of the place to the client's facilities, in order to jointly sign the documentation related to the defective parts. Immediately afterwards, the same or a sample chosen by the representative of the plaza, will be sent to MOTA Tools S.L. in order for your quality department to certify the defect. In the event that the report from the quality department confirms the defect, MOTA Tools S.L. will notify the customer, announcing the replacement of defective parts.

6. The replacement will be carried out in the shortest possible time and as a rule will occur together with the next shipment of merchandise to the customer. 7. Upon receipt of the replaced parts, the customer must sign a document stating his agreement with the replacement carried out and his waiver of any subsequent claim to MOTA Tools S.L. For that reason.
